8. Experience:

- **General Experience:** Through a total 44 years of experience, I have acquired extensive knowledge of the Jordanian Legal System. I formed my own law firm Rabah & Associates, in 1984, as a small legal practice. Since then the firm grew to become a broad based legal practice and one of Jordan's most reputable law firms, employing more than 20 professionals and lawyers graduates of the United Kingdom, Jordanian and Lebanese Universities, all members of the Jordanian Bar Association. Throughout the years, acting through my firm, I have been extensively involved in advising clients, both in the private and public sectors on a variety of matters including construction, banking, securities, carriage of goods, arbitration, privatization, taxation, intellectual property, insurance, employment and dispute resolution. Our services included a substantial international component covering, *inter alia*, inbound investment by foreign entities, outbound investment by Jordanian companies, joint ventures, mergers and acquisitions, restructuring, financing, licensing and transfer of technology.
- **Client Overview:** Our clients include private and publicly listed companies operating in diverse sectors in Jordan, Embassies, NGOs, foreign companies and group multinational companies.
- **Banking and Finance Experience:** I have represented Jordanian and foreign banks in a number of litigation cases. Presently, I am the head of legal department of Bank Al Etihad, advising the bank on various legal matters and handling, through my firm, all aspects of litigation. I have participated in syndications and project financing agreements in various fields, including, energy, construction, industry and tourism.
- **Arbitration and Dispute Resolution:** I have extensive experience in arbitration and dispute resolution; I acted in several domestic and international arbitration proceedings, under the ICC Court of Arbitration, both as a party's counsel and arbitrator, and as an Expert.
- **Construction Projects:** I have provided legal advice, to various international construction companies, which were involved in executing major projects in Jordan and abroad, including civil construction, power, transportation, cement production, steel manufacturing, infrastructure projects, and transportation projects, among those projects were the Zarqa Thermal Power Station, Baqa'a Satellite Stations, Transmission lines and other power projects, Amman Cable Network Rehabilitation, Queen Alia Hospital, Aluminum Fluoride Project (Aqaba), Turbine Island Aqaba Power Station, Queen Alia Airport, the restructuring and rehabilitation of Greater Amman's Water Supply System, Wadi Ma'in, Zara and Mujib Water Treatment and Conveyance Project, Pediatric

Hospital & Emergency Department at the King Hussein Medical Center, Arbil Gas Power Plant, Sulaimaniyah Gas Power Plant, Dahouk Gas Power Plant, Basmayah Power Plant, Mass Cement Plant, Mass Steel Plant and various renewable energy and wheeling projects in Jordan. I have also participated in the negotiations and drafting of various contracts and agreements in the power generation and electricity sector, including turnkey contracts, BOT contracts, construction contracts, equipment purchase contracts, long term service contracts, in respect of the energy electricity generation projects in Iraq.

- **Privatization:** I was also involved in privatization and acquisition projects representing various companies including, CPCS Transcom, SBC Communication Inc, Citibank, Kuwait Finance House and Qatar's Supreme Council for Economic Affairs and investment.
- Acquired knowledge, through frequent discussions with the Minister of Justice, Judges, government officials and other specialists, on matters relating to reforms, legislations and legal affairs.
- Extensive experience in Jordanian Laws and legal system.
