Subject: RE: Notes on Vessel Reports

As can be seen from the e-mail below, the Ministry of Foreign Affairs received some comments from our advisers on the method report. One of the advisers, Mubarak Waseem, has now included some suggestions directly in the report, see appendix. He writes:

If you have an opportunity, it would be good if you reviewed the suggestions and comments Olav Myklebust has previously forwarded.

It is important to keep in mind that this should be the Analysis Unit's report. Changes you are not comfortable with should not be taken into account.

Kristina Nygård

Som det fremgår av e-posten nedenfor, mottok UD noen merknader fra våre rådgivere til metoderapporten. En av rådgiverne Mubarak Waseem, har nå lagt inn noen forslag direkte i rapporten, se vedlegg. Han skriver:

Om du/dere har mulighet, er det fint om dere kan se gjennom forslagene, og kommentarene Olav Myklebust tidligere har videresendt.

Det er viktig å holde fast ved at dette skal være Analyseenhets rapport. Endringer dere ikke er komfortable med skal altså ikke tas inn.
