Subject: RE: NEAFC notifications and authorisation for 2017

Thank you Ricards,

I had copied you in as you already submitted your notifications end of November.

Best,

Pernille

Subject: NEAFC notifications and authorisation for 2017

Dear all,

Please be reminded that the EU as a Contracting Party of NEAFC is obliged to notify NEAFC of the European vessels authorised to operate within the Regulatory Area.

This is done once a year and always in December.

In order to prepare this in advance and avoid last minute issues, I would like to remind you about the up-coming deadline.

As stated in article 5 of Regulation 1236/2010/EU the Member States shall send “a list of all vessels flying their flag and registered in the Union which are authorised to fish in the Regulatory Area... no later than 15 December ...” to the European Commission

I would highly appreciate if you could send me the lists as soon as you have them ready and in this way allow me to prepare all the notifications and authorisations.

Should you have any questions then please do not hesitate.

Thank you very much in advance.

Kind regards,

Pernille Skov Jensen

When Member States send vessel authorisations to the Commission they must ensure that all formal and substantive requirements for the granting of the fishing authorisations in question are respected. Furthermore, Member States must authorise their vessels only if applicable rules of EU law, of the respective Regional Fisheries Management Organisation and, where relevant, of international law are fully complied with.

Please be aware that the transmission of the authorised Union fishing vessels by the Commission to the relevant Regional Fisheries Management Organisation can in no case be construed as formal endorsement, approval and/or authorisation by the Commission of any fishing activity which is exercised in contravention of applicable EU law, the rules established by the relevant Regional Fisheries Management Organisation and international law.
