Dear Madam/Sir,

My name is Peteris Pildegovics, I am the sole owner of the Norwegian company called SEA AND COAST AS (Org nr 913 902 726), based in Batsfjord.

Last week there was a serious of articles published by Dagbladet. Here is one of them: <https://www.dagbladet.no/nyheter/de-skjulte-slavekontraktene/70460627>

The newspaper insists that my company was involved in the process of issuing visas to seamen from Indonesia and that my company was signing with them "slave contracts". However, when the journalists sent me the sample of a contract I told them immediately, that this contract is fake! The signature, the stamp and the letter-head of my company is fake! SEA AND COAST was never signing any labor contracts with any seamen! I also have made investigation in the archives of the company and I do not have any information that the vessel mentioned in the article SALDUS was in Batsfjord at the date of 15.06.2015 or close to it, so this crew was able to get on-board of the vessel. Neither was in Batsfjord vessel called ZALGIRIS at 02.08.2016 - this vessel left Norway in June 2016 and never came back!

Please find attached the documents Dagbladet sent me, do you confirm that they are coming from your Embassy?

The journalist also told me that the Embassy was surprised with the conditions in the contracts, but never called the inviting party - SEA AND COAST AS in order to check if all is OK?! I am very much shocked by this info, if the journalists are telling me truth.

I ask you to provide all and any documents in your possession from 01.01.2015 till 31.12.2016 - where the name of my company is used, be them employment contracts, guarantee letters or invitation letters. I need to clarify who and why was hiding behind my company. Please find in attachment the extract from the registrar of companies in Norway, where you can see that I am the owner of SEA AND COAST AS.

Any kind of support and assistance is highly appreciated!

Many thanks in advance!

Best regards,
Peteris Pildegovics

Dear Mr Pildegovics,

I refer to your e-mail below and I regret that it has taken a while to get back to you. It is correct that we have been contacted by Dagbladet on many occasions lately relating to the article series you refer to. I can confirm that we have provided some copies of employment agreements with the Sea & Coast AS stamp to the journalists (the names of the sailors were deleted). As a public entity we follow the "Act relating to public access to documents in the public administration" (in Norwegian: Offentlighetsloven). The Embassy processes thousands of visas annually, we regrettably do not have the possibility to go through two years of applications. Our visa application regulations are based on the Schengen rules.

Yours sincerely,

Bjørnar Dahl Hotvedt

Ambassaden i Jakarta

Dear Bjørnar Dahl Hotvedt,

Thank you for your email.

If you have managed to find the employment contracts with SEA AND COAST AS signatures and/or stamps and hand them over to Dagbladet, can you at least provide me with the same copies?

This is a serious issue and I need to have all possible documents on hand in order to understand the magnitude of this violation of company's identity and forgery of signatures and other official stationery of my company.

Thanks for understanding and forthcoming.

Best regards,
Peteris Pildegovics

Dear Bjørnar Dahl Hotvedt,

Thank you for a quick answer.

However, I want to double check with you - are the documents you shared now all what you have with Sea and Coast name in your possession?

I was told by Dagbladet, that there were much more other documents, where Sea and Coast is either signatory to an Employment Agreement or inviting party.

I would highly appreciate if you would share all documents you have.

Many thanks un advance!

Best regards,
Peteris Pildegovics

Dear Mr Pildegovics,

As my colleague informed you earlier, it is not possible for us to sort applications based on company name on invitation. The document we already sent to you (also attached here) are all the documents related to your company that we sent to Dagbladet. Since we cannot sort based on company invitation, we also have to make these statistics manually. As you can see in document 2.pdf, there are 4 applications related to your company. This is the number of application we informed Dagbladet about, but we only sent them one example (attached as 1.pdf).

In the period you are asking for, we had up to 10 000 visa application, and we do not have capacity to manually look for more applications related to your company.

Sorry for the inconvenience,

Regards/Hilsen

Dear Mr Ronny Valstad,

Thanks for your email.

I have few more questions to you if you don't mind:

1. Did I get you right - Embassy in Jakarta has sent/provided to Dagbladet ONLY those two documents you kindly emailed me? Namely, the Employment Agreement for deck crew seaman for vessel Saldus (dated June 15, 2015), and Letter of Invitation and Guarantee (dated 02.08.2016) for 4 crew members? By the way, for you to know - these documents are fake and signatures are falsified.

2. Were visas granted to the crew members mentioned in these fake documents? Is it possible to find out if these people have ever entered and left Norway?

3. What is a regular routine in the Embassy when locals are coming to apply for Norwegian visas - do you check with the inviting party if the documents are correct? Do you need to get in touch with inviting party from Norway to make sure that all is correct? Has anybody get in touch with Sea and Coast in Batsfjord to make sure that all is OK?

4. Is it true that Embassy decided to forward these "slave contracts" to KRIPOS? Dagbladet is saying that there were about 50 employment contracts in total. If they were suspicious why didn't get in touch with Sea and Coast to double check if all is OK with them?

I would appreciate if you can give me your answers ASAP.

Thanks in advance!

Dear Mr Pildegovics,

Like I said in my previous email, the documents we have sent to you are the only documents we have sent to Dagbladet specifically regarding your company.

We do not comment on the status of individual visa applications without consent from the applicant. In seaman cases like these, it is possible for the applicant to be granted a visa even though the conditions in the contract are questionable. If we are in doubt about the validity of documents in an application, we will normally consult with the issuer of the document, or the applicant. The embassy does not keep track of the actual travels for applicants after the visa is issued.

Because of the questionable conditions reflected in the contracts, the embassy reported these cases to the Ministry of Foreign Affairs and KRIPOS.

For more information about the visa application process, please see the embassy web page and UDI:

Embassy: <https://www.norway.no/en/indonesia/services-info/visitors-visa-res-permit/visitors-visa/>

UDI: <https://www.udi.no/>

If we are in doubt about the validity of documents in an application, we will normally consult with the issuer of the document,

So why you did not do so??

And it is important that they did not give these papers to DB, regarding which DB said that they had got them from the embassy. Most probably it is necessary to notify Siri that we are going to investigate now why they were lying to us.

VG is the main competitor of DB in Norway. Most probably it is necessary to involve them somehow

Best regards, Kirill Levanidov

I would write:

Thank you for your respond. However, it brings more new questions. You state :

"If we are in doubt about the validity of documents in an application, we will normally consult with the issuer of the document, or the applicant."

Why it wasn't done in this case? In the "employment contract" with the name of Sea&Coast AS on it a stamp reads "Sea&Coast Limited". Is this normal and not enough to "consult with issuer"?

And there was multiple applications with identically appearing contracts with wrong stamp and different signatures of allegedly the same persons.

We need your explanation as for why on these multiple occasions no single attempt was done to confirm the validity of the documents with alleged issuer despite the documents were obviously suspicious in their appearance and questionable in the content.

Please provide your explanations as we need to have it to support our application to KRIPOS to investigate this fraudulent mechanism of applying for visas based on falsified documents.

Best regards,
Kirill Levanidov
